STUDENTS MANAGEMENT & REGISTRATION

How would you like to...
Register new students faster?
Keep track of students from the same family?
Quickly find student's and parent's contacts?
Prevent duplicate records?
Track complaints and compliments received in an organized and efficient manner?

Students & Parents/Guardians
Information will include objectives for joining the course and the sign-up source

Communication Tracking
Track any major/important communications held between school and parents or students for future reference

Mass Emails
Important messages are blasted out to members via email (e-newsletters, promotions, etc.) or auto emails blasted out as reminders/alerts (birthday, course expiry, renewal reminder, etc.)

Mass SMS
Important messages are sent to members via SMS (reminders, alerts, promotions, etc.)
Parents or students may also reply the SMS

QUICK SEARCH

Quickly search for student's and parent's contact details.

QUICK REGISTRATION

Efficient and hassle-free registration of new students.

MOBILE REGISTRATION/APP

Use tablet or smartphone for registration.

COMMUNICATION MODULE

Track complains and compliments from students and parents.

MULTI-BRANCH SET UP

Share students'/parents' information across branches.

MASS SMS & MASS E-MAIL PLATFORM

Personalized or Mass Automated SMS & Emails.

Automated birthday and payment reminders, promotions, e-newsletters, etc.

ATTENDANCE MODULE

Would you like to...

- Answer parents' queries about their children's progress quickly?
- Resolve scheduling issues like overbooked classes or classrooms?
- Stop overlooking updates to attendance?
- Prevent inaccurate students' records?
- Track make up classes across branches?

Daily Attendance
Monitor daily attendance of students, future bookings, upgrades, make-up classes, expiry of packages, etc.
Reschedule students to different days or classes with ease.

Course Schedule
Create and organize schedule of classes. Be able to generate lessons subjects/courses with timed schedules, teachers and assistant teachers and assigned rooms. Also set max capacity to avoid overbooking.

Teacher's Management
Monitor teachers schedule and class load. Generate weekly schedule including reports such as attendance per teacher, sales by teacher etc.
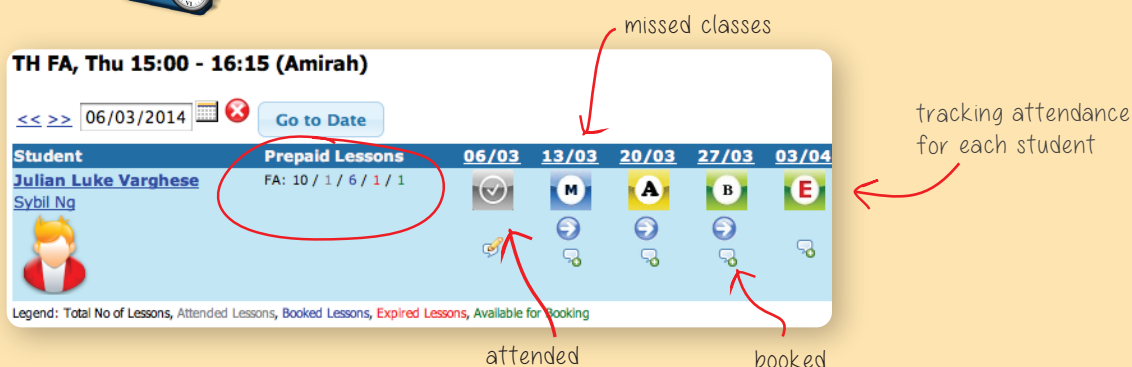

Dashboards & Reports
System will provide daily and weekly class summaries to see which classes are fully booked and which classes are not fully utilized. Attendance can be viewed per student, per class, daily and much more.

REAL-TIME ATTENDANCE TRACKING Up-to-date attendance status.

REPORTS MODULE

Do you wish...

To open new branches or franchise your business?
To analyze lots of scattered data?
To generate reports on time, quickly and easily?
To monitor if your centre's capacity is being fully utilized?
To take vacation but worried about leaving things unattended?

Sales Reports
Analyze sales by type, date or period, discounts given and payments by vouchers. See the sales trends by category. Monitor outstanding payments through ageing report, generate and print/email statement of accounts.

Attendance Reports
Easily analyze students attendance by class, date, teacher, and promotional or package/price offers. Identify popular classes and see teachers load on daily, weekly, monthly and yearly basis.

Student Reports
Know your students – from loyalty reports (e.g. filter out only students who bought more than 5 packages), through trials without normal packages, to birthday reports and auto-reminders.

Dashboards
See the most important information right on your home page – from class summary, through sales, to action items (e.g. received messages, unclosed classes, outstanding payments, etc.) and many more.

PRE-DEFINED SALES & ATTENDANCE REPORTS

Analyze your sales in real-time based on variables and various criteria.

View attendance reports to spot issues early.

FRANCHISE REPORTS

Use comprehensive reports to enhance your strategic decision making.

ALERTS AND REMINDERS

Pre-defined alerts & reminders for your staff, customers or yourself.
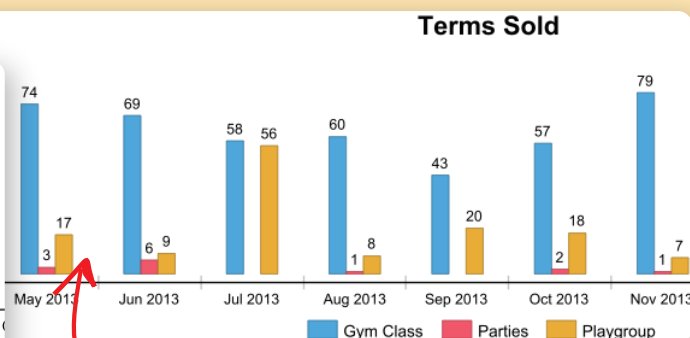

REAL-TIME DASHBOARD

Track your most important KPIs on your home page directly.

WHY CHOOSE STUDENTLOGIC?

QUICK REGISTRATION WITHOUT A HITCH

- No more stacks of paper. No more queues.
- Register via tablet, smartphone or Quick Add.
- Keep family information under one complete record.
- Share membership info among branches.

ORGANIZED DATA, ORGANIZED SCHOOL

- Business tool to manage data to know what's really going on.
- Eliminate human error, missing data and long processing time.
- Access and track multiple branches from one system.
- Early detection and warning engines alert you immediately if anything goes wrong.

EASY SCHEDULING WITH ATTENDANCE DASHBOARD

- Attendance records always up-to-date.
- Know in real-time how many classes are booked, how many were missed and how many expired.
- Automated sms/email reminders for missed classes, bookings for trial classes or renewals.
- Track student's progress in the class with individualized class remarks and work sample uploads.

FROM REGISTRATION TO CLOSING SALES IN ONE SEAMLESS PROCESS

- One screen for quick processing of memberships, deposits, course sales, and merchandise sales.
- Sales engine optimized to suit various combinations of sales activities and promotions.
- GIRO files processing for monthly fees collection.
- Ageing report and automated SMS reminders for outstanding payments.

STAY IN CONTROL WHEREVER YOU ARE

- Dashboard with real-time data and self-defined KPIs.
- Pre-defined reports for day to day needs: sales reports, teachers performance reports, etc.
- Customized reports for decision making needs.
- Franchise reports.

❝ TESTIMONIALS

MY GYM
We are happy to be a client of NextLogic. Their professionalism has indeed impressed us from the beginning of the consultation phase to the actual implementation of the system. We enjoyed every process we have gone through and appreciate NextLogic's commitment and dedication to make our system work.

Eric Lim, CEO, MyGym Singapore

GYMBOREE
NextLogic demonstrated their expertise and professionalism during software implementation. The software is user-friendly and provided with all functionality we need.

Jocelyn Hoe, Operations Manager, Gymboree Singapore

HARK MUSIC
Working with NextLogic was a very pleasant and fruitful journey. They have demonstrated professionalism in their work and sincerity in supporting our business needs. The management system has helped to bring much productivity to our operation processes.

Yoong Xin Yun, Executive Director, Hark Music

GMCS
NextLogic's previous experience with similar systems implementation has been very valuable in our project. It has enabled them to customize and implement the system for us promptly and efficiently. We appreciate the flexibility and adaptability of the provider, as well as the software itself. System is creating tangible value in our operations and supports our business growth.
